

Finding Treasure Visuals

Our lives are like treasure boxes. We can put in good things or “not-so-good” things. These visuals will help children see how they can find good “treasure” for their lives.

There are two “treasures” per page in this PDF. Cut the pages in half and laminate each “treasure” individually. During the academic year each RE assembly will explore a different “treasure.” Add the appropriate card for each assembly to a treasure box. You can make one from an ordinary shoe box with aluminium foil wrapped around.
